

# Breaking the myth of 'Islamophobia'

by Hanif Moalem

Islamophobia is merely a wretched term made up by anti-racism pretenders. Even though, as a rationalist, I am proud to be Islamophobic and I am going to explain why.

Islam is not a 'race'; it is neither a religion nor a spiritual belief. Islam is not peaceful; rather, it is a harsh political ideology. According to the Koran, dying for Allah is the absolute good and terrorism for the sake of Allah (Jihad-fi-sabil-e-Allah) is prized in heaven.

And kill for Allah those who fight you and don't transgress [...] (Koran 2:190).

And slay them wherever ye catch them, and turn them out from where they have turned you out; and tumult is worse than slaughter; and don't fight them at the Sacred Mosque, unless they (first) fight you there; but if they fight you, slay them. Such is the punishment of those who refute faith (Koran 2:191).

Slaughtering is prescribed for you and you dislike it. But it is possible that you dislike something that is good for you, and that you like something that is bad for you. But Allah knows and you don't know (Koran 2:216).

Then kill for Allah and be aware that Allah hears and knows (Koran 2:244).

Don't think of those who died for Allah as dead. Rather, they are alive and provided with provision by their God (Koran 3:169).

Then slaughter in the way of Allah. Thou are held responsible only for thyself—and rouse the believers. It may be that Allah will restrain the fury of the non-believers for Allah is the strongest in might and in punishment (Koran 4:84).

Go ye forth, whether equipped lightly or heavily, and strive and struggle, with your goods and your persons in the way of Allah. That is best for you if you knew (Koran 9:41).

Above-mentioned are some among approximately 164 verses regarding Jihad (Islamic terrorism) and war guidelines from the Koran. The Koran, unlike other religious booklets, is mostly consist of fighting tactics and political conquer strategies that clearly pigeonholes Islam into a political-ideology category, not a spiritual belief system.

Although other religious texts like the Bible or the Torah might be slightly milder and more about blathers, the Koran on the other hand is evidently a systematic, strategic assassination guide and a war declaration against believers of other ideologies.

“A’salam” is a secret code between two Muslims who greet each other, which means ‘peace’ or ‘truce’. Muslims at Mohammed’s time would not trust each other and they would regularly kill one another, therefore, according to the Koran, it was a secret code that was set by their leaders before attacking and invading other lands, meaning that they would not kill someone who says “A’salam” or one who is one of their flock.

O ye believers! When you go abroad in the way of Allah, investigate carefully, and don’t say anyone who offers you (A’salam) is not a believer [...] (Koran 4:94).

It is obvious that Islam was merely a political strategy designed by Mohammed or reportedly by someone who taught him, to invade and conquer other lands. Islam is in fact the biggest imperialistic ideology that has conquered most of the world so far. Another controversy is that some parts of the Koran have been evidently plagiarized from the Avesta and the Old Testaments that brings up the argument that the Koran has been a conspiracy that has been taught to Mohammed by someone more knowledgeable than him to conquer the world. Nevertheless, Mohammed was Hitler of his time who tried to dominate the world, and evidently, he was very successful with it. One important difference between Mohammed’s strategy and Hitler’s, was that Hitler’s primitive goal was to erase the Jews, but Mohammed’s tactic was to remove whoever would not accept Islam.

Mohammed has repeatedly encouraged his followers to slaughter violently whoever resists accepting his ideology during the wars in his book:

Indeed the punishment of those who fight against Allah and his apostle, and strive with corruption on the earth, is murder, or crucifixion, or cutting off their hands and feet from opposite sides, or exile from the land: that is their disgrace in this world, and a heavy punishment is theirs in the hereafter (Koran 5:33).

[...] then murder the polytheists (pagans) wherever you find them and capture them and besiege them and sit in wait for them at every place of ambush [...] (Koran 9:5).

Whilst Western-born critics might be accused of being ‘Islamophobic’, on the other hand, the increasing number of those who have been born in Islamic states and dare to speak out in this regard strongly challenges the fallacy of ‘Islamophobia’. Maryam Namazie, Wafa Sultan and Nonie Darwish are some among many of whom all have been raised in Islamic states. Meanwhile, a common fallacy regarding this issue is that those who criticize Islam and the Koran do not possess the correct interpretation and knowledge of the Arabic language, whereas statements made by above-mentioned women breaks this claim. These people are from Islam’s

cradle, two of them speak fluent Arabic, and they have been born and raised among Muslims and have felt the burning of the fire of Islam to their every bone.

Thus, it is revealed that 'Islamophobia' was merely a nonsensical term that was made up to put a stop on criticizing Islam and maybe to buy Al-Qaeda or similar militant groups more time to plan another 9/11 attack.

We refuse to renounce our critical spirit out of fear of being accused of 'Islamophobia', a wretched concept that confuses criticism of Islam as a religion and stigmatization of those who believe in it (Salman Rushdie- novelist).

Although religion per se is nonsensical, Islam is not even one, but rather a threatening ideology like Nazism and thus uprooting Islam is of great importance in civilized, modern societies. Islam has no values in common with other cultures, is inferior to the West, and is a violent political ideology rather than a religion. Islam is barbaric, irrational, primitive, and sexist. It is violent, aggressive, threatening, supportive of terrorism, and engaged in clash of civilizations. Furthermore, Islamic imperialism or 'Islamic Nazism' is much more dangerous than Nazism itself because instead of one 'Adolf Hitler', there are dozens of Muslim Imams and leaders and instead of one Nazi Germany, there are a dozen of Islamic nations that are willing to conquer and dominate the world.

As a freeborn breed, human is meant to be liberated, but ideologies are made to captivate people and keep them in bondage. Islam on the other hand, aims for captivating both believers and non-believers of this ideology. Islam was spread with the slogan that: "Accept that Allah is the only God, or die!" and hence it has continued to grow until today.

The Islamists hate everything other than what they are themselves. They killed for example over a 100,000 Algerians who disagreed with their brand of Islam, [...] (Daniel Pipes- Obsession).

We must be thrilled of the day that the army of 'zombies' might walk into crowds while fastened suicide nuclear bomb belts, carrying the Koran, and yelling 'Allah-o-akbar'. Any Muslim passing by you is a potential time bomb that might blow up any second to be fast-tracked to Allah's fornication house in heaven and to be boozing with Mohammed. The threat is very close and you never know when they are going to attack. Islam and Islamisation of the Western world is a frightening phenomenon that accelerates the army of 'zombies' dominating the world.

The most honorable death is by killing. And the most honorable killing and the most glorious martyrdom, is when a man is killed for the sake of Allah (Hassan Nasrallah- Hizbollah Secretary General).

While biggest disasters in the history have been conducted by Muslims, 'Islamophobia' is in fact such a nonsense term. Truth of the matter is that, in fact whoever is not thrilled by Muslims must reconsider their cautiousness. Of course, not one hundred percent of Muslims are numbskull murderers, but there are enough of them extremist ones to make the world like hell.

Every single country in the world is dealing with this on one level or another. You see that the Thais are dealing with it, you see that the Philippines are dealing with it, Europeans are dealing with it in Madrid, the Russians are dealing with it in Chechnya, the British are dealing with it in London and in Manchester, and of course you see in the Middle East whether it's in Iraq, in Iran, in Syria, in Lebanon, in Egypt, and of course in Israel, Saudi Arabia, and you go to Africa and you see that Jihadists are operating everywhere [...] to South Africa. All of these areas that we referred to, are separate wars; the Palestinian war in Israel, the Iraq war, they see all of these not as specific wars, but as [...] a global Jihad (Caroline Glick- Obsession).

Islamic fundamentalism is a global network and a global problem. They are living with you, inside your borders, and you never know when they are going to attack. London suicide bombers, were all British born, and willingly killed their fellow citizens and 9/11 attackers were trained inside the U.S. So for instance, if you live in London, and you are not Islamophobic by now, then you probably have a problem.

The message of the Islamic revolution is global and is not restricted to a specific place or time. Have no doubt that -Allah willing- Islam will conquer all apexes of the world (Mahmoud Ahmedinejad- Iran's President).

If you had not realized so far that Islam has clearly declared war on us, then it is about time you did. If you lived so far in the hallucination that Muslims are merely normal, innocent civilians, it is about time you realized that they are not. If you have not been afraid of Islam so far, if you have not been 'Islamophobic', it is now time to be one. The army of 'zombies' are coming; carrying the Koran, hollering 'Allah-o-akbar'. So let us not close our eyes on the elephant in the room; an elephant that might blow up himself -and us- any second.
